

# Density investigation

1. Have a guess what each material is, and put this in the first column (material).
2. Fill in mass, length, height and depth for each material
3. Work out the Volume by multiplying the length, height and depth on a calculator
4. Finally, fill in the final column (you will have to ask to do this!)

<b>Material</b>	<b>mass/ g</b>	<b>length / cm</b>	<b>width/ cm</b>	<b>depth/ cm</b>	<b>Volume/ cm<sup>3</sup></b>	<b>Density/ g/cm<sup>3</sup></b>
<b>A:</b>						
<b>B:</b>						
<b>C:</b>						
<b>D:</b>						
<b>E:</b>						
<b>F:</b>
